Projects:

Hobbies Web Application (Java Spring Boot Application)

- Developed a Java Spring Boot web application named 'Hobbies' that suggests the best hobbies for users based on their thoughts and preferences.
- Technologies and Tools Used:** Utilized key dependencies and tools such as Spring Boot DevTools, Spring Web, Spring Security, Spring Data JPA, MySQL Driver, Lombok, React.js for the frontend, and MySQL Workbench for the database.
- Backend Development:** Designed and implemented REST APIs and handled the integration part of the project. Ensured seamless communication between the frontend and backend, playing a vital role in the project's functionality and user experience.

Experience:

Full Stack Java Developer Intern

Jan 2024 – May 2024

Karthikeya Software Solutions Pvt.Ltd, Tirupati.

- I trained basic front end and back end technologies and designed few Front End Projects using HTML, CSS, JavaScript and React Js. Also Developed few Backend applications like Java core projects and RESTful APIs.
